FORM 5

MDEQ

MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY APPLICATION FOR AIR POLLUTION CONTROL PERMIT

Application Addendum for a Synthetic Minor Permit

Appendix B

1. Synthetic Minor Source Definition

Note: This addendum may be attached to the front of the Application for Air Pollution Control Permit. If the addendum is used, all air emission sources, pollutants, and emission rates must be included in the application. There are no insignificant activities.

A Synthetic Minor Source is defined in 11 Miss. Admin. Code Pt. 2, Ch. 2 as: "Any stationary source which would otherwise constitute a major source as defined by Miss. Admin. Code, Title 11, Part 2, Chapter 6, "Air Emissions Operating Permit Regulations for the Purposes of Title V of the Federal Clean Air Act", except that the owner or operator of the stationary source elects for federally enforceable emissions limitations which may include permit conditions restricting hours of operation, or type or amount of material stored, combusted or processed, or establishing more stringent air pollution control efficiency requirements to lower allowable emissions for air pollutants in the State Permit to Operate below applicability thresholds for a Title V major source."

_	below applicability thresholds for a Title V major source."
2.	Name and Location of the Facility
	A. Facility Name:
	B. Facility Air Permit No. (if known):
	C. City: D. County:
3.	Limitations/Restrictions
	List the limitations/restrictions on the facility that you are proposing in order to qualify as a synthetic minor source and the proposed methods of demonstrating compliance with those limitations/restrictions. If necessary, attach additional pages.
	Printed Name Signature Date
	* Signature shall be the same as on the application form in Section A.
